Volunteering and Work Experience

If you have a part time job, placement or internship, or are involved in voluntary work, make sure you get recognition for your efforts through one of these modules,

Find out more about these modules >> page 17

What is the Advantage Award?

Taking part in the Nottingham Advantage Award can be your ticket to career success.

We can help you make the most of your time at university. You'll meet new people and get to try out new things. In this booklet we give you a flavour of each of the modules available to you and how you can benefit from them.

You must complete three modules to achieve the Advantage Award, but you cannot take more than two modules in an academic year. Your participation is included on your degree transcript and recognised at your graduation ceremony. It is something you can mention on your CV, provides examples you can use in job interviews, and gives you some of your best memories from your time at university.

The details of how to apply vary from module to module, so once you've decided which module you want to take, visit our Workspace site for all the details. Decide what you want to get involved in and you can start achieving more!

Vice-Chancellor Professor David Greenaway on the value of the Award

"At Nottingham we really believe in the all-round learning experience our University has to offer. The Nottingham Advantage Award is what a Nottingham education is all about. It pushes your thinking further, develops you as an individual and helps to prepare you for a successful career when you leave us.

The Advantage Award is an innovative way of building some of the many extra-curricular opportunities available to you as a Nottingham student into your time here, and I encourage you to take this exciting opportunity to get involved in this award-winning scheme."

Professor David Greenaway
Vice-Chancellor

Choosing your modules

▪ Are you doing anything already that could be accredited?

If you have a part time job or placement, are involved with the Students' Union, or are volunteering, these modules will help you make the most of your activity.

**▪ Is there a particular skill you want to develop?**

If you want to develop skills such as leadership or project management, broaden your cultural awareness or learn a language, we offer a range of modules to support you.

▪ Are there any modules that fit in with your career objectives?

We offer modules that can improve your interview skills, help you investigate different career paths, give you industry experience and more.

▪ Do you want to try a new activity?

The Award can help you make sure you get the most out of university life and offers unique opportunities to engage with potential employers and get involved with student run projects.

Career Planning Skills (Careers and Employability Service)

The module is run in the autumn and spring terms. It aims to help you plan your future career and give you an insight into what to expect from the recruitment process, including:

▪ Writing CVs, cover letters and application forms
▪ Assessment centre and interview practice
▪ Personality profiling, aptitude tests and decision making

To pass this module you will need to attend all 5 workshops, a mock interview and tutorial and submit a career plan.

Career Skills for Chemists (School of Chemistry)

The specialised course is designed to give Chemistry students important career and employability skills, awareness of the jobs market and access to the expertise of industrial partners in order to develop:

▪ CV, interview and employability skills
▪ Commercial awareness and entrepreneurial skills
▪ PhD and industrial employability

To pass this module you will need to attend all 8 workshops, deliver a short presentation and submit a reflective journal.

Career Skills for Geographers (School of Geography)

The module aims to enable 2nd year Geography students to think more clearly about their personal development, employability, career paths, job seeking skills and the recruitment process, including:

▪ CVs, covering letters and application forms
▪ Interview and assessment centre skills
▪ Career options, sectors and further study

To pass this module you will need to attend 8 sessions and submit a CV and reflective journal.

Career Skills in Economics (School of Economics)

The module aims to enable 2nd year Economics students to think more clearly about their personal development, employability, career paths, job seeking skills and the recruitment process, including:

▪ CVs, covering letters and application forms
▪ Interview and assessment centre skills
▪ Career options, sectors and further study

To pass this module you will need to attend 8 sessions and submit a CV and reflective journal.

7

Career Skills in English
(School of English)

This module will help English students to think dynamically and clearly about personal development, employability, job seeking skills and career paths. It helps with:

▪ Writing CVs, cover letters and application forms
▪ Assessment centre and interview skills
▪ Networking with alumni and employers to research jobs sectors

To pass this module you will need to attend 6 workshops, a mock interview and tutorial and submit a CV and reflective journal.

Inside Employment: Investigation into Financial Careers (Careers and Employability Service)

This module is run during autumn term and aims to provide an insight into careers in the financial sector, through individual research, group work and networking. You will develop vital employability skills including:

▪ Project management
▪ Interviewing and networking
▪ Team working and presenting

To pass this module you will need to attend 3 workshops, deliver a short presentation and submit a skills journal.

Inside Employment: Investigation into Legal Careers (Careers and Employability Service)

This module is run during spring term and aims to provide an insight into careers in the legal sector, through individual research, group work and networking. You will develop vital employability skills including:

▪ Project management
▪ Interviewing and networking
▪ Team working and presenting

To pass this module you will need to attend 3 workshops, deliver a short presentation and submit a skills journal.

Employer Programme (Business School)

Students in the Business School can participate in the Employer Programme by attending employer led presentations and workshops focusing upon careers and employability skills, including:

▪ Career paths, sectors and job search
▪ The recruitment process
▪ Skills that employers require from graduates

To pass this module you will need to attend all 8 events, produce a CV after a meeting with an advisor, and complete a personal skills statement and reflective journal. Please refer to Workspace for full assessment details.

Skills for Employability (Careers and Employability Service)

This module is designed to help students develop key employability skills by attending Skills for Employability Workshops run by employers in autumn and spring, for instance:

- CVs, applications, assessment centres and interviews
- Leadership, commercial awareness and networking

To pass this module you will need to attend 6 workshops, complete and submit online activities and a CV.

Career Transitions (Careers and Employability Service)

This module is designed to help students get the most out of university, prepare for the world of work and participate in key employability activities run during autumn and spring, including:

- CV reviews, interview coaching, strengths discussion
- Careers fairs, work-wear fashion shows
- 'Careers in' skills workshops

To pass this module you will need to attend an introductory workshop, 4 career events and a poster presentation.

Introduction to Workplace Preparation (Michael Page)

This module provides students with the opportunity to participate in business skills workshops and live business scenario training. You will develop skills in:

- Customer service, telephone manner and client management
- Operational and organisational awareness
- Team working and presenting

To pass this module you will need to attend 3 workshops, deliver a short presentation and submit a skills journal.

Common Purpose Frontrunner Course (Common Purpose UK)

Frontrunner helps students, who have a track record of leading change, to set their sights even higher as they look ahead beyond full-time education. On these unique 3-4 day courses, participants visit a wide range of organisations and quiz leaders from many different walks of life.

This gives you a rare opportunity to broaden your knowledge, plan your future and develop your leadership skills.

To pass this module you must attend the Frontrunner course and submit a reflective journal.

Employability and Career Skills modules

Experian Leadership Programme
(Experian)

The Experian Leadership Programme will assist you to understand more fully the role of a leader in business. Teaching focuses upon self awareness and reflection, enabling students to realise their own individual style, areas of strength and need for improvement.

The module is split into sessions with the themes of: self awareness, communication, presentation and more.

To pass this module you must attend all workshop sessions, deliver a short presentation and submit a reflective journal.

An Introduction to Corporate Social Responsibility
(Enterprise Rent a Car)

Working in groups with other students, you will get a unique opportunity to work with the Enterprise Rent a Car diversity committee to generate ideas for their CSR strategy. You will get valuable commercial experience and the chance to pitch your ideas to senior managers at Enterprise. You will gain:

▪ Project and budget planning skills
▪ Report writing, presentation and team work skills
▪ Commercial understanding, business and enterprise skills, idea generation

To pass this module you will need to attend 4 workshops, onsite meetings and deliver a short presentation.

Mentoring: A Practical Introduction
(Professional Development)

This module is available to students from all academic disciplines in the autumn term. This module will help you to understand the role of a mentor, the skills needed to undertake this role and you will get practical experience in mentoring a friend, course mate or house mate. You will develop skills in:

▪ Effective communication, relating to others effectively, self awareness
▪ An understanding of your own perspective on a range of situations

To pass this module you will need to attend all 4 workshops, submit a reflective journal and deliver a short presentation.

How to apply for a module

The registration process varies from module to module and the most up to date and detailed information about the application process for each module can be found on the Nottingham Advantage Award's Workspace site.

This can be accessed by visiting: http://workspace.nottingham.ac.uk/display/naamy

Building Financial Capability
(Student Services, Financial Support)

Students on this module will research, design and deliver a campaign to other students on the topic of improving financial capability and will not only develop financial awareness but a range of key skills including:

- Events, budget, project and campaign management
- Presentation, communication, team work skills
- Time management, research, networking and problem solving

To pass this module you will need to attend 4 workshops, complete a project plan and deliver a short presentation.

PR Project Management
(Off Campus Student Affairs)

Students taking part in this module will be given the unique opportunity to research, plan, cost, budget and deliver their own PR project linking the student community, local community and local council. You will develop:

- Events, budget, project and campaign management skills
- Presentation, communication and team work skills
- Time management, research, networking and problem solving skills

To pass this module you will need to attend 4 workshops, complete a project plan and deliver a short presentation.

Save the Children Enterprise Scheme (Save the Children)

This module provides you with a unique insight into Save the Children's work, and the opportunity to get involved through campaigning, business development and organising and publicising events. You will gain:

- Events, budget, project, fundraising and campaign management skills
- Presentation, communication and team work skills
- Time management, research, networking and problem solving skills

To pass this module you will need to attend 3 workshops, deliver a short presentation and submit a reflective journal.

Project Management (School of Education)

Chosen to compliment the curriculum, students from the School of Education get the opportunity to plan and deliver events, such as the fine art or humanities exhibitions or creative writing anthology. You will gain:

- Events management, project management and team work skills
- Presentation skills, publishing and performance experience
- Time management, research, networking and problem solving skills

To pass this module you will need to produce a reflective self-evaluation and participate in a group presentation. School staff will support you with expert advice and guidance.

Students in Free Enterprise - SIFE (Business School)

SIFE Nottingham, one of the most successful teams globally, plan and implement local and global outreach projects with the aim of creating economic opportunity for all. SIFE will help to develop:

▪ Enterprise, entrepreneurship, commercial and business skills
▪ Presentation, communication and team work skills
▪ Time management, research networking and problem solving skills

To pass this module you will need to attend 5 workshops, adviser meetings and submit a reflective journal.

Student Engagement and Events Programme (Alumni Relations)

Students taking part in this module will get the chance to run a series of events to highlight Alumni Relations across the student body. You will create, deliver and evaluate awareness raising events, developing:

▪ Events and budget management, PR and marketing skills
▪ Time management, research, networking and problem solving skills
▪ Group facilitation and evaluation

To pass this module you will need to attend 3 workshops, complete a project plan and deliver a short presentation.

Community Engagement (School of Education)

Chosen to compliment the curriculum, students from the School of Education get the opportunity to plan and deliver events that have a focus upon community engagement, such as MayFest, Open Days and more. You will gain:

▪ Events management, project management and team work skills
▪ Presentation skills, publishing and performance experience
▪ Time management, research, networking and problem solving skills

To pass this module you will need to produce a reflective journal. School staff will support you with informal mentoring.
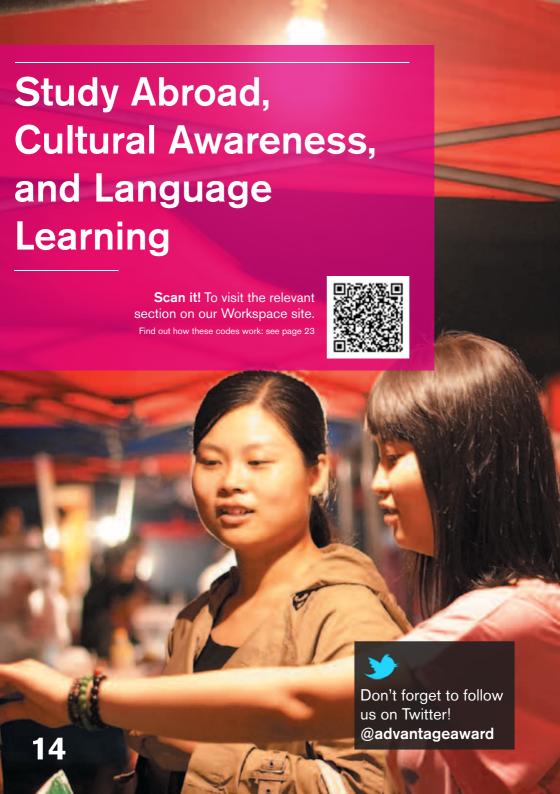

Student Venture Challenge (Business School)

A competition in its own right, with a prize fund of £10,000, the Student Venture Challenge is a business plan competition. It is aimed at enterprising students who have an idea for a product or service they would like to take to market.

Students will be supported through the plan writing process by a series of workshops on the following topics:
▪ Marketing plan and sales strategies
▪ Intellectual property rights
▪ Licensing options
▪ Business finances

To pass this module you will need to attend all workshop sessions and submit a reflective journal.

14

British Sign Language - BSL
(The Language Centre)

This module is designed for beginners to help you learn some basic signs and how to communicate with deaf people on a range of topics that involve simple everyday language use.

- Work in class is practice based and involves group and pair work
- Students will be expected to complete self study outside of class
- Final assessment will help you evidence your language level

To pass this module you will need to attend 10 evening classes and a final assessment session, and complete the supporting workbook. Contact the Language Centre for availability.

Study Abroad: Developing Cultural Awareness (International Office)

This module is intended to help students taking part in U21 and inter-campus mobility schemes, to develop their own inter-cultural awareness and personal skills, and make the most of overseas experiences.

- Prepare for and evaluate your experiences and their impact
- Reflect upon experience through a journal or blog
- Develop a range of social, personal and employability skills

To pass this module you will need to attend 3 workshops, complete a journal or blog and attend a final presentation.

Language Classes
(The Language Centre)

These module are designed for students taking evening language classes offered by the Language Centre, at all levels, and focuses upon listening, speaking, reading and writing.

- Work in class is practice based and involves group and pair work
- Students will be expected to complete self study outside of class
- Final assessment will help you evidence your language level

To pass your module you will need to attend 10 evening classes and a final assessment session, and complete the supporting workbook. Contact the Language Centre for availability.

Year Abroad Dossier Part One
(School of Cultures, Languages and Area Studies)

This module is designed for 2nd year students preparing for their year abroad. You will undertake workshops detailing how to prepare effectively and make the most of your time abroad.

You will:
- Develop an understanding of cultural diversity
- Analyse and reflect on language acquisition in a new context
- Capture the links between the year abroad and your academic studies

To pass this module you will need to attend all Year Abroad sessions, submit an action plan and complete online reflective activities.

Year Abroad Dossier Part Two
(School of Cultures, Languages and Area Studies)

This module is designed for 3rd year students on a year abroad. You will make the most of the year abroad by completing a reflective dossier and preparing effectively for your return.

You will:
- Analyse and reflect critically on language acquisition in a new context
- Make informed decisions about life experience and learning outcomes

To pass this module you will need to attend all Year Abroad sessions, complete online tutorials, attend a peer review session when you return and submit a reflective dossier.

Tandem Language Buddying
(Language Centre)

Tandem learning is a conversation exchange scheme which matches you to a native speaker of the language you are studying, allowing you to both practice your chosen language.

The scheme will enable you to:
- Improve language skills for you and for someone else
- Meet new people and make new friends
- Learn flexibly at your own pace and extend your knowledge

To pass this module you will need to attend 6 workshops, tutorials, 6 language meetings and submit a module journal.

International Summer Schools
(International Office)

The University Summer Schools offered at China and Malaysia campuses give students the opportunity to learn about politics, culture, globalisation, security, language, sustainability, industry and more.
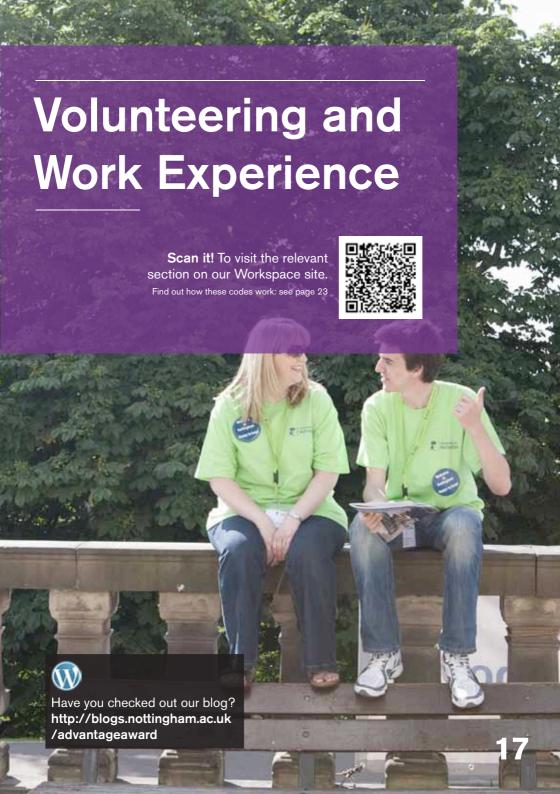

You will:
- Understand different cultural contexts and their impact on your development
- Reflect upon experiences abroad and development as a global citizen
- Develop an understanding of the particular subjects on offer

To pass this module you will need to attend all lectures, seminars and activities at your host campus and submit a reflective journal.

How to apply for a module

The registration process varies from module to module and the most up to date and detailed information about the application process for each module can be found on the Nottingham Advantage Award's Workspace site.

This can be accessed by visiting:

Have you checked out our blog?
http://blogs.nottingham.ac.uk /advantageaward

English Language Support for Primary School Parents (School of Cultures, Languages and Area Studies)

This module is available to students in the School of Cultures, Languages and Area Studies who are completing TEFL (2nd years) or have completed the year abroad (4th years). You will be placed within a local primary school as a volunteer to provide English language support to non-native speaker parents seeking to improve their English.

You will develop skills in:
▪ Classroom management and lesson planning
▪ Communication and people skills

To pass this module you will need to attend all workshops, supported teaching hours, deliver a short presentation and submit a journal.

Engineering Research Placement Scheme (Faculty of Engineering)

This module provides a unique opportunity for potential first class undergraduate students to sample first-hand the life of a researcher.

You will work under the guidance of an academic supervisor on a research project over the summer holidays and have access to a wide-range of technical facilities normally only used by postgraduate researchers. This is a wonderful opportunity for anyone thinking of a career in research to get hands-on experience.

To pass this module you will need to attend a series of compulsory training courses and submit a poster.

Literacy Volunteers (School of English Studies)

This module is available to students in the School of English Studies who volunteer on the School of English Studies Literacy Support project.

You will develop:
▪ Reflective skills in evaluating issues in volunteering and literacy support
▪ Employability and careers skills
▪ Communication, mentoring and interpersonal skills

To pass this module you will need to attend 20 hours of workshops, tutorials and meetings, alongside your placement and to submit a journal and case study.

Go4SET Volunteers (Engineering Development Trust)

Go4SET projects are designed to show 13 and 14 year olds how science and engineering applies to the real world. As a Go4SET volunteer you will be placed in a local school to mentor pupils who are developing projects with an environmental theme. You must be studying engineering, maths, science, or computing to take part.

You will develop:
▪ Classroom management, mentoring and working with young people
▪ Effective communication skills

To pass this module you will need to attend an introductory event and final showcase event, weekly sessions in school, submit a reflective journal and deliver a short presentation.

18

NUSA Volunteers (Nottingham University Samworth Academy)

This module is for students who are interested in a career in education and the relationship between research and teaching. Student volunteers will be placed in NUSA to undertake a research project and develop greater awareness of:
▪ Classroom management, widening participation, learning and education
▪ Employability skills, career pathways
▪ Communication, mentoring and interpersonal skills

To pass this module you will need to attend 3 workshops, complete your volunteering, submit a research assignment and deliver a short presentation.

Taking Physics to the Public (School of Physics)

This module is available to students from the School of Physics and Astronomy. You will undertake an important outreach role, giving tours to prospective students, running activities for open days and in local schools & producing marketing material.

You will:
▪ Develop communication, confidence and interpersonal skills through your work with the public
▪ Gain an understanding of widening participation and the role of outreach
▪ Gain practical employability skills

To pass this module you will need to attend 5 workshops, undertake outreach activities, submit a journal and deliver a short presentation.

Sports Any-Buddy Scheme (Department of Sport and Physical Recreation)

As a volunteer sports 'buddy', you will support disabled and non-disabled students who find it difficult accessing sport, to get fit, play sport and most importantly, have fun whilst doing so.

You will develop:
▪ An understanding of the role of a buddy, the skills required to carry out this role and the barriers faced in accessing sport;
▪ Time management, organisational, communication and motivation skills.

To pass this module you will need to complete a CRB check and attend 4 workshops, undertake buddying sessions and submit a reflective log.

Student Ambassador Scheme (Widening Participation)

As a Student Ambassador, you will undertake a range of activities including open days, giving tours to prospective students and parents, helping to run activities in local schools and much more.

You will develop:
▪ An understanding of policies, procedures and the role of outreach
▪ An understanding of widening participation and links to schools
▪ Time management, communication, organisation and interpersonal skills

To pass this module you will need to complete ambassador activities, attend 3 workshops and tutorials, submit a journal and deliver a short presentation.

19

Biosciences Ambassador Scheme
(School of Biosciences)

As a Student Ambassador in the School of Biosciences, you will undertake activities for the School such as open days and giving tours to prospective students.

You will develop:
▪ An understanding of policies, procedures and how to promote the School
▪ Time management, communication, organisation and interpersonal skills

To pass this module you will need to complete ambassador activities, attend 3 workshops and tutorials, submit a journal and deliver a short presentation.

Students' Union Volunteering
(Students' Union)

If you are involved in organising a group in the Students' Union such as a club, or society, or you hold a long term volunteering position through the Student Volunteer Centre, this module will help you to identify the key skills you are developing and make the most of your involvement. You will:
▪ Complete activities that focus upon 3 key skills: leadership, assertiveness and project management
▪ Develop communication and team-work skills

To pass this module you will need to attend 2 workshops, complete online activities and reflective journals and complete a significant number of hours in your voluntary role.

Inspire Mentoring Scheme
(Widening Participation)

Inspire Mentors offer guidance to 13-17-year-old pupils who have the potential to progress on to Higher Education. They work outside of the classroom primarily on a one-to-one basis. Mentoring can include guidance on topics such as routes into HE, exam technique, motivation, and more. You will develop:
▪ An understanding of the role of outreach and widening participation
▪ Time management, communication, organisation and interpersonal skills

To pass this module you will need to complete ambassador activities, attend 3 workshops and tutorials, submit a log and give a presentation.

Part-time jobs, vacation jobs and volunteering
(Careers and Employabiilty Service)

Available to all students, this module will help you get the most out of your job or volunteering, understand the key employability skills you will gain, how to present this on your CV and how reflective practice is used in the world of work.

You can take part in this module if you:
▪ Have a job through Unitemps
▪ Work part time off-campus
▪ Are volunteering in the community, abroad or for the University

To pass this module you will need to complete 40 hours of work or volunteering, attend 2 workshops and complete online activities including a reflective journal.

20

Placements and Internships
(Careers and Employability Service)

Available to all students, this module will help you get the most out of your placement or internship. The module will help you:

▪ Identify the skills you develop and how the experience has enhanced your employability
▪ Develop an understanding of your 'professional' identity
▪ Find creative ways to sell yourself to employers

To pass this module you will need to complete 40 hours of work, attend 2 workshops, complete online activities and deliver a short presentation.

IT Consultancy Community Engagement Project (School of Computer Science)

A unique community project for Computer Science students, which will give you a taste of what it's like to be an IT consultant. The project will involve you providing technology solutions to help improve a local charity's performance, whether you're improving existing systems or piloting new and innovative approaches.

▪ Improve your job prospects
▪ Get invaluable industry experience
▪ Make a difference in the local community

To pass this module you will need to attend all workshops and mentoring sessions, complete a reflective log and deliver a short presentation.

Global Citizenship, Cross cultural communication and engagement with Chinese Society (School of Contemporary Chinese Studies)

Available to all students, this module is designed to help students learn about citizenship and civil society in the context of globalisation and China's rise, and to develop knowledge, skills, awareness and leadership. You will:

▪ Participate in a series of lectures and seminars
▪ Learn from Chinese social enterprises
▪ Design projects to work with relevant stakeholders targeted at the issues facing Chinese communities
▪ Develop career objectives from a multi-cultural perspective

To pass this module you will need to complete 40 hours of work or volunteering, attend 2 workshops and complete online activities including a reflective journal.

Community Engagement: Sharing Cultures (Business School)

In this module students will have the opportunity to develop and deliver practical sessions relating to either Asian or European culture. These sessions will be delivered in local primary schools with the aim of strengthening community links. You will:

▪ Develop your understanding of what it is to be a social citizen
▪ Develop your knowledge and skills to improve employability

To pass this module you will need to attend all workshop sessions, submit a reflective log and deliver a short presentation.

Community Engagement: Community Projects (Business School)

In this module students work on local community projects by contributing the knowledge they are learning from their courses to solve real business issues, including creating business plans, marketing surveys, store development and business opportunities.

You will:
▪ Develop your understanding of what it is to be a social citizen
▪ Develop your knowledge and skills to improve employability post graduation

To pass this module you will need to attend all workshop sessions, submit a refective journal and deliver a short presentation.

Zoology Collection Volunteers (School of Biology)

As a volunteer you will help to conserve and identify specimens within the zoology collection and plan and produce themed displays.

This module will help you:
▪ Think critically about how to produce informative zoology displays
▪ Gain an understanding of widening participation and the role of outreach
▪ Read primary journals and précis the information into a short, clear article
▪ Gain practical skills in preparing creating and maintaining a collection

To pass this module you will need to contribute to a collection project, submit a reflective journal and deliver a short presentation.

Citizenship and Civil Society (Community Partnerships)

This module presents an exciting opportunity to engage in discussion and thinking about how your current volunteering activities fit within the socio-political context of the moment.

Guest speakers from the third sector and social enterprises, and academics working in this area, will help bring this topic alive and there will be opportunity for debate and discussion. The module will also identify some of the unique and distinctive features of working within a social business context.

To pass this module you will need to attend all 8 workshop sessions, complete a reflective journal and deliver a short presentation.

Teacher Associates Scheme (Widening Participation)

Teacher Associates work alongside a classroom teacher to offer support in local schools. They undertake activities such as helping groups with class work and working one-to-one with pupils to improve attainment. The scheme also aims to provide opportunities to raise pupil aspirations towards Higher Education and to act as positive role models. You will develop:
▪ An understanding of the role of outreach and widening participation
▪ Time management, communication, organisation and interpersonal skills

To pass this module you will need to complete ambassador activities, attend 3 workshops and tutorials, submit a log and give a presentation.

Special Achievement Awards

Students who have completed the Award or those who are in the process of completing their third module will now be able to nominate themselves for special achievement prizes.

These prizes will recognise an individual's contribution or development in a specific area such as entrepreneurship or volunteering.
